Black Wolf's Bad Heart

(Copyright, 1906, by C. H. Sutcliffe.)

The Cheyennes had fought the white soldiers for fifteen years. Chief Walk-by-Night had started out in the belief that there were only about 5,000 white men in all America, and as soon as he could get them together he would finish them off, but after many years he came to have a better understanding.

When the first blades of green grass were seen on the southern hillsides word was sent out to the subchiefs to gather in council. All responded but Black Wolf. He was a fiery tempered young man of twenty-five. It had so happened that he and his band had taken all the scalps gathered in during the year past, and he was ambitious, fearless and a great hunter. He wanted war all the time. He had plans to round up all the white soldiers and make a grand feast of them. Let the Cheyennes perform some daring deed and they might count on an alliance with at least three other tribes. Black Wolf claimed to be ill and asked for a few days' delay.

On the bluff on the north bank of Medicine creek the white soldiers were building a fort. It was within the Cheyenne territory and was another insult to them. Black Wolf had seen the men at work the previous fall. During the winter work would have been suspended, but now that spring had come the white men would be busy again, and again the white topped wagons would roll across the plains.

Those wagons, as he knew, contained flour, meat, firearms, powder and bullets, blankets, cooking utensils, clothing and many other things needed by his tribe. If he could run off five or six of them, with perhaps half a hundred mules and horses, the wealth of the tribe would be restored twice over. The feat would be a daring one, and one to challenge admiration and bring about alliances. Walk-by-Night would no longer cover his face and talk of peace, but his voice would be for war and his face painted to strike terror to the hearts of his enemies.

It was a golden opportunity for Black Wolf. He had less than fifty warriors in his band, but all were enthusiastic and sure of success. It was a ride of seventy-five miles from the camp to the bluff where the fort was building, but this was less than two days' ride, and even on the half starved ponies, the medicine man made his medicine and pronounced it good, and away rode the young men. The soldiers were busy, and a wagon train was crawling over the plains. The Indians could not have asked for the situation to be bettered. They lost little time in pushing in. The last six wagons were cut off by a brilliant dash, seven of the escort killed and the rest fleeing toward the fort.

Falling hair is caused by germs at the roots of the hair. Dandruff is caused by germs on the scalp. Ayer's Hair Vigor, new improved formula, quickly destroys all these germs, cleans the scalp clean and healthy, and stops falling hair.

Forty-Fifth Anniversary.

Mr. and Mrs. Daley Celebrate Event in North Calais.

The forty-fifth anniversary of the wedding of Mr. and Mrs. Sullivan Daley occurred last Friday, at which time their friends and relatives to the number of 65 called upon them unexpectedly at their home in North Calais, to assist them in the proper observance of the event. The affair was a complete surprise to Mr. and Mrs. Daley, who had no intimation of what was to happen until the guests commenced to appear. The event was a most enjoyable one for all present, the celebration occupying the afternoon and evening. Refreshments were served and the host and hostess were presented with many gifts and a purse of money. A letter from the sister of Mrs. Daley, who resides in Massachusetts, was also read. The evening was spent very pleasantly socially and dancing was indulged in.

Mr. and Mrs. Daley are well known, and held in the highest esteem in their town, having resided in that vicinity all their lives.

RAILROADS TO YIELD

Will Grant 10 Per Cent Wage Increase.

SYSTEMS OF COUNTRY

Ready for Concession—Increase Equal to 1.4 Per Cent Dividend—Italian Embassy Settles North Carolina Labor Trouble.

Chicago, Nov. 17.—The Record-Herald says: The railroads of the entire country stand ready to accept the standard of wages set by the Pennsylvania and to grant their employees an increase of ten per cent in lieu of other demands. This increase would affect more than 1,250,000 employees and would aggregate about \$50,000,000 annually. This sum the roads are ready to give the large army of employees provided the latter will accept it and cease for the time being any further demands for increases in all branches of the railway service. Several railway magnates have already taken action in the matter and have decided to grant the increase. If the matter can be arranged amicably with their employees, the magnitude of the concession to labor is understood when it is stated that the increase will amount to a dividend of 1.4 per cent on the capital stock of the entire railroad systems of the country. There has been no concerted action on the part of the railroads, but the question of increase in wages has been the subject of discussion in many meetings which have been held among the western presidents and executive officials at Chicago and among the Eastern men at New York.

ITALIAN ISSUE SETTLED.

Damages to Be Paid Families of Two Italians Killed.

Washington, Nov. 17.—After months of negotiation the Italian embassy has effected a satisfactory settlement of the labor troubles at Marion, N. C., which culminated in a riot on May 14, in which two Italian laborers were killed, five others were wounded and hundreds of Italian workmen were driven into the mountains. The department of justice took an active interest in the case. A compromise was effected whereby the corporation paid damages to the families of the two men who were killed, and made a satisfactory settlement with the Italians who were injured in the riot. The Spruce Pine Carolina company was succeeded by the Meadows company in the construction work, and has given the Italian embassy assurances that workmen shall not suffer further mistreatment. Charges of poisoning are still pending against the Spruce Pine Carolina company, but the corporation has agreed to assist in the prosecution of the case. The settlement was effected after a long and difficult negotiation. The Italian embassy is not disposed to make further trouble for the officers of that company.

A COMPETITOR FOR RAILROADS.

New Move For Lakes to Gulf Deep Waterway.

St. Louis, Nov. 17.—By the election of E. S. Conway of Chicago as permanent chairman and W. F. Saunders of St. Louis, secretary, the first step toward the permanent organization of the Lakes to the Gulf Deep Waterway association was taken yesterday afternoon. The report of the credential committee showed an attendance of more than one thousand delegates representing the Mississippi river and its tributaries. Addresses were made by former Governor David R. Francis of Missouri and Congressman Henry T. Rainey of Illinois. Mr. Rainey said that this country had been divided into spheres of influence by seven great railroad groups, which do not infringe upon each other's territory. "We cannot regulate freight rates by legislation," he continued. "The only way of improving railroad rates is by opening our great natural waterways to commerce by making the channels navigable for boats capable of carrying thousands of tons of cargo." A committee was instructed to prepare an address to the public, embodying the best means of procuring a deep waterway from Lake Michigan to the Gulf of Mexico.

DEER DAMAGE ORCHARD.

About 300 Young Trees Injured in Brattleboro by Being Nibbled.

Brattleboro, Nov. 17.—John B. Barrows is in Montpelier to see what he can do about securing reimbursement for the damage done to his apple orchard by deer. E. B. Barrows owns an orchard of about 3,000 trees on Ames hill, and during the past summer and fall about 300 young trees have been seriously damaged by deer and as many more have been nibbled. Mr. Barrows seeks to recover from the state \$150 for this damage. Fred L. Howe, who owns a smaller orchard near that of Mr. Barrows, has sustained considerable loss in the same way, but as yet he has made no effort to recover from the state.

CRONSTADT IN STATE

OF WAR; RUSH TROOPS

General Uprisings in the Crimea Alarm Czar's Government—17 Members of Constitutional Party Are Comdemned to Death.

St. Petersburg, Nov. 17.—Cronstadt is in a state of war and the government has created the post of governor-general there.

Uprisings in the Crimean district are general. Baku has been created a prefecture and the town and district of Yalta have been declared in a state of extraordinary defense.

Kursk, Samara and Danz have been declared by the government in a state of reinforced defense.

Troops are being rushed to the affected districts.

Paris, Nov. 17.—Seventeen members of the Constitutional Democratic party have been condemned to death by the revolutionaries, according to a St. Petersburg dispatch. It is also said that a price of 25,000 roubles has been put on the head of Count Witte.

GROTON.

A. G. Taisey of Montpelier was in town Tuesday and Wednesday.

Mr. and Mrs. Daniel Wormwood are both ill at their home in Westville.

Alexander Dunnsett of St. Johnsbury was in town Monday on legal business.

Mrs. William Reid and son, Edwin, returned to their home in Hardwick on Saturday.

John H. Senter of Montpelier was the guest of Representative I. M. Ricker over Sunday.

Alex. Welch called to Laconia, N. H., Monday, being sent there as a witness in a law suit.

Mr. and Mrs. R. T. Heath and Mr. and Mrs. Austin Welch were in Peacham one day recently.

Dr. Lee of Wells River was in town Saturday in consultation with Dr. Hatch in the case of Mrs. Noah Emery.

Mr. and Mrs. C. J. Pillsbury were at G. H. Pillsbury's Tuesday. Mr. Pillsbury returned to his home in Montpelier, while his wife remained for a longer visit.

The Rathbone Sisters held a reception at the close of their regular meeting on Tuesday evening in honor of M. Eva Bailey, representative to the Supreme Temple at New Orleans. Refreshments of cake and coffee were served and a delightful evening passed.

The Baptist church bazaar held on Wednesday and Thursday proved to be a grand success financially despite the bad weather and traveling. The society realized one hundred dollars from the sale and supper. The ladies have reason to feel proud of the management of their annual church sale.

EAST MONTPELIER.

Ira Doying is moving to the house owned by Mrs. L. W. Loomis near the depot.

George Witham has finished work in town and will go to Cabot to work this winter.

Mrs. Julia S. Willard of Wolcott arrived in town last Friday for a visit with relatives.

Mrs. Dr. K. L. Cleaves of Montpelier spent Sunday with her parents, Mr. and Mrs. A. S. Foster.

Quite a number of music loving people from this town attended the concert in Barre Thursday evening of this week.

Mrs. Ethan Jackson is now gaining and the family expects to move next week to the Witham house east of the village.

Miss Lena Clark visited in So. Ryegate last week and is spending this week at the home of her brother, Ernest, in Groton.

Miss Blanche Tappin of Windsor and Mrs. C. H. Farnsworth of Woodville were guests at H. M. Farnham's several days last week.

Farnham is a nephew of Mrs. Farnsworth. The discussion at Grange last week was a success, which is most profitable for a farmer to raise his cows or buy them, and all talked in favor of raising them. It is hoped all members will go to the meeting next week.

Ed. Bellville and Miss Mabel West drove to Waterbury and returned last Saturday to deliver a pair of horses R. M. Farnham sold to a Rochester man, and since then Mr. Farnham has sold a pair to go to Bethel and a pair to go to Waterbury.

NEWBRO'S HERPICIDE

The Original Remedy that "Kills the Dandruff Germ."

THE HUNTERS CAME TOO LATE!

Their Faithful Dog has pointed out the True Remedy to Prevent Baldness But the Hunters Came too Late—Chronic Baldness is Incurable.

HERPICIDE A "HAIR SAVER."

Newbro's Herpicide saves the hair by destroying the germ or microbe that is now known to be the cause of dandruff, falling hair and baldness. In chronic baldness the hair follicles are completely atrophied, causing the scalp to shrink and shine. Little can be done in such cases except to save the remaining "fringe," and this is well worth saving, for it offers some protection against the cold.

The "Hair Grease" is a fallacy. It requires but a slight knowledge of anatomy to know that the hair gets its life and strength from the hair-papilla at the bottom of the hair follicle, and the papilla in turn gets its nourishment direct from the blood; therefore nature is the only true hair grower. There are enemies of hair growth that cause hair loss and baldness. Invisible microbe growths enter the sebaceous glands, situated at the top of the hair follicles (Dr. Sabouraud of Paris says the microbes usually enter the scalp in youth), where one colony after another is established, until finally, after months and sometimes years, there is dandruff, itching scalp and falling hair. The Sebaceous glands, causing dry, lustreless and brittle hair. Destroy this microbe growth with Newbro's Herpicide and protect the hair against re-infection, and it will grow as nature intended.

WHAT A LEADING DRUGGIST SAYS: Herpicide has been a success with us from the start, owing to two considerations. First, because it is essentially a mercurious article and does the work that is claimed for it and every bottle sold makes a friend, who publishes the glad tidings to other friends, and an endless chain is thus created for Herpicide.

Secondly, you fill your contracts to the letter and treat your agents squarely and cleverly, and every agent in turn takes pleasure in pushing the goods for your personal account. We have never sold a proprietary article which was more satisfactory. (Signed) W. H. Turbert, Dubuque, Iowa.

GETTING EVIDENCE.

Injured Husband Also Got Away with Butter and Eggs.

F. Augustus Heinze at a dinner in Butte praised a Western doctor.

"At the start," said Mr. Heinze, "this man secures the sympathy of his audience. To secure sympathy at the start is very often the secret of success."

"There was, for instance, a distracted fellow who entered a grocer's shop and said:

"I believe I am an injured husband, sir, and I desire to verify my suspicions by watching a house in the next street. But I can do this safely only from the rear of your shop. Will you be good enough to let me sit by the open window there for half an hour?"

"The grocer, patting the man's shoulder in a kindly fashion, said:

"To be sure, my friend. Make yourself at home, and good luck to you."

"Some time passed. Then the jealous husband rushed through the shop, rolling his eyes and muttering:

"I'll kill her! I'll go home and get the gun and kill her now!"

"Your wife?" asked the grocer.

"Yes," groaned the man. "My alas wife, my adored May. I cannot doubt her guilt and before sundown I shall be a murderer."

"The grocer tried to detain him, but he got away. Nothing happened in the way of murder for an hour or more, and then, a little disappointed and suspicious, the grocer made an investigation in the back of the shop, to find that there had been passed out through the window three bags of butter, a crate of eggs, two tubs of flour and a dozen hams."—Butte Inter Mountain.
